Price List 2018-2019

dbp is a local photography business with significant knowledge of wedding venues around Cambridgeshire, having photographed many weddings over the past fifteen years.

We pride ourselves on delivering a professional service at a competitive price.

We always remember that this is YOUR special day, not a studio photo shoot.

We will ensure that the photographs we take for you are as formal or informal as you wish. Some couples want more traditional poses and a Wedding Album, others want their day recorded more casually and with candid shots of friends and family attending. This can create a pictorial record of the mood and atmosphere of the entire occasion.

We like to meet you before the event to get to know you, discuss options and agree a brief. A number of couples enjoy having some "engagement" photographs as part of that brief.

Whereas most photographers offer a package price, we aim to be as flexible as possible and tailor the photography according to your wishes. The following prices are therefore for guidance only:

All Prices Include:

Pre wedding consultation.
Register signing, formal groups.
A preview CD with images from the day.
Images on web for friends to view.
